Gentlemen:

At age 65 I fly radio controlled model aircraft. My son, in his 40's and my grandson age 12, also fly such planes. It is a family sport. Why do you want to give our frequencies to the drug dealers for their pagers? Why don't you have some backbone and the courage of your convictions and simply ask Congress to **ban all types of radio controlled frequencies**. This would certainly be more honest than chipping away at our frequencies and causing us to buy new radios [plural-each of us use several radios] every few years.

Your new plan will be the **death** of the sport. I would sure like to buzz your...um..um.. your office.

Respectfully

Don R Fisher
